French style is as much about discipline as it is about self-expression. French women know the intrinsic value of classic basics and integrate their favorite clothes and accessories based upon years of experience perfecting their unique sense of style.

French women know how to create a sense of intrigue. And it's not achieved by wearing a barrage of latest trends or designers. It's about having the confidence to dress up a simple white button-down, incorporating their signature flair, for a far more interesting and sophisticated look.

Most women tend to buy everything that catches their eye. There's not much discernment, just buying power. And these women have the overstuffed closets to show for it.

I must warn you – This book is not just another simplistic buying guide to achieve a French chic look. Nor will I insult you with cliché advice on incorporating scarves into your daily wardrobe. I would like to offer you a different perspective.

This book includes advice and insights about making empowering choices when it comes to what is hanging in your closet. The choice to simplify, buy less, and keep only fabulous items. The choice to honor your body first and foremost. And the choice to invest in your wardrobe.
