Advanced Custom Rod Building

Dale P. Clemens

Advanced Custom Rod Building Dale P. Clemens

Sometimes a certain book becomes so important in its field that it is considered to be the bible of the subject. So it is with Dale P. Clemens's *Advanced Custom Rod Building*, the book that sent American fishermen back to their workshops. Noting practically and philosophically that a rod is an "extension of the angler's hand," Clemens encourages every fisherman to have a rod that is customized for his or her grip and casting style.

Clemens explains all of the general principles necessary for making tackle that is superior to anything off the rack, and provides exhaustive figures, illustrations, and tables for the experienced custom builder who wants to fish the perfect rod for his own hand. He shares invaluable advice on how to build rods of every kind, from ultra-light to heavy surf, how to choose (and make) the best blanks, seats, handles, grips, and guides, and how to finish and seal rods to make them as handsome and durable as possible.

Stunningly detailed and thorough, *Advanced Custom Rod Building* is a complete guide to building a fisherman's most essential tool and an indispensable companion for any serious angler.

From reader reviews:

Betty Adkins:

In this 21st century, people become competitive in each way. By being competitive today, people have to do something to make all of them survive, being in the middle of the crowded place and notice simply by surrounding. One thing that occasionally many people have underestimated that for a while is reading. Yes, by reading a guide your ability to survive boost then having chance to endure than other is high. For yourself who want to start reading some sort of book, we give you this specific Advanced Custom Rod Building book as beginner and daily reading book. Why, because this book is more than just a book.

Tina West:

The reason why? Because this Advanced Custom Rod Building is an unordinary book that the inside of the reserve waiting for you to snap that but latter it will shock you with the secret that inside. Reading this book beside it was fantastic author who write the book in such awesome way makes the content within easier to understand, entertaining means but still convey the meaning entirely. So , it is good for you because of not hesitating having this ever again or you going to regret it. This amazing book will give you a lot of positive aspects than the other book have such as help improving your skill and your critical thinking method. So , still want to delay having that book? If I had been you I will go to the guide store hurriedly.

Debbie Clark:

Do you have something that you prefer such as book? The book lovers usually prefer to decide on book like comic, limited story and the biggest some may be novel. Now, why not seeking Advanced Custom Rod Building that give your fun preference will be satisfied simply by reading this book. Reading habit all over the world can be said as the opportunity for people to know world a great deal better then how they react when it comes to the world. It can't be said constantly that reading habit only for the geeky person but for all of you who wants to always be success person. So , for all you who want to start reading as your good habit, it is possible to pick Advanced Custom Rod Building become your own starter.

Henry Hedrick:

This Advanced Custom Rod Building is great reserve for you because the content which is full of information for you who all always deal with world and still have to make decision every minute. This book reveal it info accurately using great coordinate word or we can state no rambling sentences inside it. So if you are read that hurriedly you can have whole information in it. Doesn't mean it only will give you straight forward sentences but challenging core information with lovely delivering sentences. Having Advanced Custom Rod Building in your hand like getting the world in your arm, facts in it is not ridiculous 1. We can say that no book that offer you world in ten or fifteen minute right but this reserve already do that. So , this really is good reading book. Hello Mr. and Mrs. stressful do you still doubt this?
