God in Action: How Faith in God Can Address the Challenges of the World Cardinal Francis George
"What if God has his own ways that are not always our ways? What if God acts in public affairs in ways that can, of course, be ignored from day to day but at a price for individuals and whole societies? If God is an actor, how is it possible to trace his action? . . . Can we discover God's actions in the part of human experience that is public in our day?" —Francis Cardinal George

In this bracing manifesto, His Eminence Francis Cardinal George, one of the leading Catholic intellectuals in America today, provides refreshing insight into the intersection of faith and the public sphere. Finding both challenges and reasons for hope, he lays out a vision for national life that respects natural law, human dignity, and the essential ways religion uniquely contributes to the common good.

In our country today, the significance of religious faith is often reduced to personal spiritual convictions or peculiar ideas found within self-contained churches, synagogues, temples, and mosques. Yet, as Cardinal George argues, it is God acting through humanity that is the very root of the core ideals that shape society. In the process, a moral framework is built that allows life to flourish. Consequently, he calls for resistance to creeping ideas that seek to deny religious organizations the freedom to act on their convictions and, thus, shutting voices of faith out of the public square on culture-defining issues.

Moreover, Cardinal George calls for a fundamental reevaluation of questions surrounding human rights, religious liberty, respect for life, just war, commerce, immigration, and globalization. In turn, he points out a clear path that respects individual conscience while integrating faith and natural law into the public conversation on our shared future.

An important book for challenging times, *God in Action* presents a universal message rooted in the Catholic philosophical tradition that is impossible to ignore.
