How to Keep Your Volkswagen Alive: A Manual of Step by Step Procedures for the Compleat Idiot

John Muir, Tosh Gregg

When How to Keep Your Volkswagen Alive was first published in 1969, launching John Muir Publications, it was affectionately adopted by VW enthusiasts, and John Muir found himself regarded as the "sage" of air-cooled VWs. As one reader put it, "This book is a philosophy lesson disguised as a repair manual." With clear instructions on how to fix absolutely everything in an air-cooled VW, it covers all models built through 1978, including the Bug, Beetle, Karmann Ghia, Bus, Camper, and more than 20 other vehicles. Full of funny stories, philosophical ponderings, and Peter Aschwanden's easy-to-understand illustrations, this special anniversary edition includes readers' accounts of how the book made them laugh out loud while they fixed their VWs and saved money.
