A look at workplace evolution, this book evaluates the impact of change on how individuals learn. The workplace is seen as a learning community in which skill development, knowledge extension, and personal growth are all part of an individual's work. It argues that only by creating a lifelong learning environment will individuals harness their intellectual potential, ensure their job satisfaction, and allow for organizations to optimize their staff. This book shows individuals how to move ever closer toward personal, organizational, and, ultimately, national success.
