The Book of Michael...My Walk with AIDS is about the life of a very unique man who captured the hearts of just about everyone who was in his presence. You couldn't help but notice him, as his extraordinary voice stirred the soul of whoever was listening to him. Michael led a very productive and rich life as he would strive to obtain the very best for himself, even from his teenage years when he decided to get his first job, that required him to get up in the wee morning hours to go to work before he started his school day. He graduated with high honors throughout the years and landed a very lucrative job that paid him a salary beyond his training, which opened doors for him that others only dreamed of. He was highly favored for his outstanding personality and quickly went up the ladder of success, even without the degrees which would have normally been required. Michael eventually took on the gay lifestyle and began his involvement with hundreds, if not thousands of gay men. He contracted HIV/AIDS from one of those encounters, which changed his entire life. He was also in a very abusive relationship with one of the men he became involved with. This book written by his sister, Donna Savage, tells his life story, as he is no longer alive to tell it himself. I believe sharing the details of what took place in Michael's life will change the hearts and minds of many readers. There is high risk of multitudes contracting HIV/AIDS if education is not administered. Michael's voice will finally be heard throughout the world, as he was told it should be by someone who greatly admired it, sharing his life, miracles and walk with AIDS. May his testimony be a blessing to all!
