Impasse Michael Diamond

Michael Diamond's book *Impasse* is a daring expose of the real world order. Through the fictional tale of a man whose wartime actions torment him, Diamond illustrates how a false reality has taken over the world.

The book opens to an act of terror in Palestine. A suicide bomber has detonated a bomb, destroying a busload of people. Anne Whalen, a history professor near retirement, sees the news unfold and immediately realizes her tragic involvement. Meanwhile, an ex-soldier who took part in a war crime is also jarred by the news. As his past comes back to haunt him, he is compelled to take responsibility and be tried by a court of law as the guilty party.

Impasse is the story of this man, Hershel Selden, and how he tosses convention aside, breaks away from his familial connections, and, despite risk to himself, pursues what is right. The book exposes the shadowy cartel that runs this world, making puppets of us all. Most significantly, it sets forth a roadmap for defeating the global puppet masters.
