Science vs. Bible vs. Quran (2)The Sun: The Quran preceded the science and NASA while the Bible contradicts with the science! Dr. Ibrahim Khalil Aly

The Quran preceded the science and NASA while the Bible contradicts with the science! The Sun is mentioned more than 200 times in the Bible and 32 times in the Quran, i.e. the Bible mentions the Sun six times more than the Quran does. The Sun in the Bible: Joshua commanded the sun and the moon to stand still and the sun stood still until the fight is finished. In another occasion, the sun stood still in the heavens at the light of the arrows and at the shining of the spear. Moreover, the moon will shine as brightly as seven times the sun does. The Bible claims that the Sun has wings The sun ashamed and will not shine The Bible talks too about the unique mother which has Sun. Only in the Bible, there are Sun stroke and Moon stroke. Furthermore, the Bible gives us some fruitful advices for man's activities on the earth e.g.: • The hard work = nothing • There was no profit under the sun • Nothing is new under the sun • Under the sun, everything = nothing • King Solomon says: "I hated life" • Wise or foolish or vanity? • Hard work and fights = Nothing • Why King Solomon hated all his labor • Do not see the sun • Do not have knowledge • Do not experience anything • It is pleasant for the eyes to see the sun • The lamp is the Lamb • With the Lamb, we do not need neither the Sun nor the moon. Then, the Bible talks about a Woman Clothed with the sun and the dragon which drew 33% of the stars of heaven, and cast them to the earth. In addition, Sun rise is mentioned in the Bible in about 45 verses and sun set is mentioned in the Bible in about 35 verses The Sun in the Quran: The Quran Preceded NASA by more than 1400 years; in the Quran: the sun is an illuminating lantern and according to NASA: the sun is an illuminating lantern Also the Quran says that the sun and moon are swimming and floating in their orbit In is known that Allah's laws of nature are fixed. Everything runs according to its term appointed and the sun and moon runs according to their term appointed. In addition, the Quran talks about the following issues: • The sun and moon are moving without pause • The sun and the moon run according to fixed laws • The sun has a fixed age • The Sun is running to its "Mustaqarr" • Allah made the sun and the moon for reckoning • The sun and moon measure time • Allah made the sun an indicator of the shadow • The sun and the moon function in due measure • There is life elsewhere in the universe • Allah made the sun subservient • The Sun is subjected by Allah's command Historically, the Quran talks about the Sun and the great Prophets: • Abraham • Joseph • Solomon The Quran presents what Abraham has done with those who worshiped the sun; and How Abraham used the Sun in his Argument with the unbeliever king and what was Abraham Religion. Also, the Quran gives the story of Solomon and the Hoopoe with those who worshiped the sun. The stories of Abraham and Solomon and the Hoopoe are not mentioned in the Bible. Also, you will read about Joseph's dream in Bible vs. Quran Furthermore, the Quran talks about the following topics: • The unbelievers yesterday vs. the unbelievers today • The alchemy of Allah in Sun and Moon • Why the Suicidal Rate in East is lower than that in West • When the unbelievers mockingly ask: "when will the day of resurrection be? And see the answer in the Quran • The Sun at the Day of Judgment • is there Sun, over heat or cold in Paradise Upon reading this book, one may ask these questions: • Is the Quran quoted from the Bible? • Which book preceded the sciences?
