## **Learning About Weather - ScienceWorks for Kids (Scienceworks for Kids Series) Evan Moor**

Learning About Weather covers concepts that address National Science Education Standards. Concepts covered include: there are many kinds of weather, weather changes from day to day, weather can be described by measurable quantities-temperature and wind materials exist in different states, water can change from one state to another, and rain is part of the water cycle. A variety of engaging activities present the concepts in ways that young students can understand. Each concept presented includes: teacher directions for lessons and reproducible resource pages such as sets of picture cards, minibooks, and lab sheets to record the results of hands-on investigations.
