**Revision 7: DNA (Neil and Mavra Adventure Series)** Terry Persun

2012 IPPY AWARD WINNER ("Sweet Song") For fans of Isaac Asimov, Robert Silverberg, Arthur C. Clarke)

Revision 7: DNA

About "Revision 7: DNA": "Time travel and conspiracies combine with sensational robotics in this science fiction thriller. Furiously fun. Terry Persun will keep you guessing and wanting more." -- Kay Kenyon, New York Times bestselling author of "The Entire and the Rose"

About "Doublesight": "Lately fantasy rarely surprises and seldom delights, but Terry Persun's novel "Doublesight" does both and more. Richly textural, complicated in character, and presenting a world unlike any other, this debut imbues new blood into the genre. It is a stunning fantasy for the new millennium." -- James Rollins, New York Times bestselling author of "the Eye of God"

Time traveling robots, a walking medical experiment turned detective genius, and a kidnapped psychic combine in a story that will tear at your heart and get your adrenaline pumping.

the problem...

When it comes to investigating missing objects, Neil Altman stands out. After all, his parents severed the two halves of his brain when he was a child and then trained him to use each half independently. The problem is that he doesn't believe in time machines, so Dr. Eric Steffenbraun's project, stolen or not, already sounds far-fetched.

the proof...

Video is hard to deny, but Neil isn't sure if the beings coming through the time machine are humans with masks or illegal humanoid robots. Besides, Dr. Steffenbraun could have faked the video if he feared the project was about to be cancelled.

the complication...

Neil's wife, Mavra, is a well-known psychic in the area, and believes that Neil could be in danger. Knowing how she can get involved even when asked not to, he includes her in on the investigation. His plan is to keep her out of harm's way. That is until she's kidnapped.

the wildcard...

Miles away from Neil and the time machine, Fenny is trained to think on his own. He's a utility robot with little understanding of what's going on around him except what Dr. Smedley Klein has taught him--for now. Things are about to change for Fenny once Revision 7 is installed.

For fans of science fiction and sci-fi in all its forms including books with robots and robotics, killer robots, nice robots, robotic science, time machines, traveling through time, time travel, dark energy, dark matter, unusual characters, psychics, psychic happenings, thrillers, sci-fi thrillers, suspense, mystery/suspense, science fiction thrillers, sci-fi suspense, sci-fi mystery, science fiction suspense, science fiction mystery, sci-fi detective, science fiction detective, near future thrillers, near future suspense, near future detective, near future sci-fi thrillers, near future science fiction thrillers, near future sci-fi suspense, near future science fiction suspense, political thrillers, political suspense, political mystery, political mystery/suspense, political detective, political secret agent, secret agent thrillers, secret agent, suspense, secret agent mystery, sci-fi series, science fiction series, thriller series, suspense series, mystery/suspense series, sci-fi thriller series, science fiction thriller series, political thriller series, hard sci-fi, hard science fiction, shamanism, shaman detectives, totem animals, drum journeys, dreams, dreaming, altered states, occult, occult fiction, metaphysical, metaphysical fiction, parapsychology, and more.
