Becoming Beholders: Cultivating Sacramental Imagination and Actions in College Classrooms

Catholic colleges and universities have long engaged in conversation about how to fulfill their mission in creative ways across the curriculum. The "sacramental vision" of Catholic higher education posits that God is made manifest in the study of all disciplines.

Becoming Beholders is the first book to share pedagogical strategies about how to do that. Twenty faculty—from many religious backgrounds, and in fields such as chemistry, economics, English, history, mathematics, sociology and theology—discuss ways that their teaching nourishes students' ability to find the transcendent in their studies.
