Dental Implants: The Art and Science, 2e Charles A. Babbush DDS MScD, Jack A. Hahn DDS, Jack T. Krauser DMD, Joel L. Rosenlicht DMD

For coverage of cutting-edge techniques and procedures, **Dental Implants: The Art and Science** is your "go to" reference! This edition includes 20 new chapters and coverage of the latest advances and research from leading dental implant experts. Topics range from the business of dental implants and risk management to new treatment techniques such as Teeth In A Day[®] and Teeth In An Hour[™], the All-on-4 concept, Piezoelectric bone surgery, the new NobelActive[™] implant, the use of dental implants in children, and more. Over 1,100 full-color clinical photographs and illustrations bring concepts to life and provide step-by-step visuals for surgical and prosthetic techniques. If you're looking for a comprehensive, up-to-date resource you can trust, **Dental Implants** is the book you need!

- **Over 1,100 full-color clinical photographs and line drawings** help to clarify important concepts and provide step-by-step guidance for specific techniques.
- **All aspects of both business and patient care** are covered, including risk management, patient selection and master planning, radiographic evaluation, surgical techniques, postoperative care, maintenance, and dental hygiene.
- **Highly-regarded lead author Charles A. Babbush, DDS, MScD**, is one of the leading dental implant surgeons in the world and a highly regarded educator, speaker, and author.
- **Expert contributors** from all over the world describe the latest advances in implantology and represent the forefront of research.
- **Coverage of the newest techniques** includes CT/CBCT and interactive virtual treatment planning, Teeth In A Day and Teeth In An Hour, the use of implants in children, the new NobelActive[™] implant from NobelBiocare, Piezoelectric bone surgery, and the All-on-4 concept.
- **Twenty chapters are new to this edition**, reflecting the rapidly changing field of dental implants.
- **New! *The Future Need and Demand for Dental Implants* chapter** includes a general description of tooth loss plus the field's growth and trends.
- **New! *The Business of Implant Dentistry* chapter** looks at how implant dentistry has evolved from a small part of a few clinical practices into a global business with thousands of clinicians placing and restoring implants manufactured by more than 100 companies, including coverage of cost and overhead plus insurance coverage.
- **New! *Essential Systems for Team Training in the Dental Implant Practice* chapter** looks at how to train the entire dental team in the procedures required to successfully complete implant cases, including the four pre-surgical phases (diagnostic work up, laboratory procedures, treatment planning conference, and case presentation).
- **New! *Dental Implant Therapy for Medically Compromised Patients* chapter** focuses on systemic factors that have an impact on the indications, contraindications, and success rates of endosseous implants.
- **New! *The Use of CT/CBCT and Interactive Virtual Treatment Planning and the Triangle of Bone* chapter** introduces treatment planning methodologies which will define new paradigms which can be universally applied to a variety of clinical presentations for partially and fully edentate patients.
- **New! *Peri-Implant Soft Tissues* chapter** looks at the healing of the connective tissue after installation of the transmucosal implant component, as well as other issues.
- **New! *Contemporary Sinus-Lift Subantral Surgery and Grafting Procedures* chapter** discusses the sinus

lift subantral augmentation treatment, including biologic and anatomic considerations, vascular supply, elevation of the schneiderian membrane, and more.

- **New! *Graftless Solutions for Atrophic Maxilla* chapter** addresses pre-treatment planning, systematic evaluation of the edentulous maxillae, and factors for successful treatment.
- **New! *Complex Implant Restorative Therapy* chapter** promotes successful restorative outcomes with guidelines for evaluation of the patient plus dental evaluation, case planning, treatment presentation, provisional restorations, soft tissue esthetics, and eight different treatment scenarios.
- **New! *Intraoral Bone Grafts for Dental Implants* chapter** addresses bone biology, pre-op evaluation and planning of the bone graft surgery, patient preparation, the bone graft donor site, the graft recipient site, and implant placement in onlay grafts.
- **New! *The Use of Computerized Treatment Planning and a Customized Surgical Template to Achieve Optimal Implant Placement* chapter** introduces the guided implant surgery concept combining presurgical planning and computerized surgical-guide fabrication with presurgical fabrication of a provisional or final prosthesis that can be delivered at the time of surgery.
- **New! *Teeth In A Day and Teeth In An Hour* chapter** describes implant protocols for immediate function and esthetics.
- **New! *Extraction Immediate Implant Reconstruction* chapter** presents clinical guidelines for placing implants immediately following extraction, from single tooth to full mouth, and illustrates this concept with nine cases.
- **New! *Management of Patients with Facial Disfigurement* chapter** includes patient rehabilitation, treatment planning, patient presentation, and case studies.
- **New! *Piezosurgery* chapter** focuses on Piezoelectric bone surgery, a new osteotomy and osteoplastic technique using micro-vibrations to overcome the precision and safety limitations of traditional instruments.
- **New! *A New Concept of Tapered Dental Implants* chapter** takes an in-depth look at the NobelActive™ implant.
- **New! *The All-On-4 Concept* chapter** discusses the advantages of the All-on-4 concept that is based on the optimal number of four implants for supporting an edentulous jaw with a complete arch prosthesis.
- **New! *Laboratory Procedures as they Pertain to Implant Reconstruction* chapter** deals with the procedures for a partially edentulous to a fully edentulous restoration.
- **New! *Complications and Failures: Treatment and/or Prevention* chapter** includes a categorization of the etiological factors of complications and/or failure: 1) the implant system, 2) the patient, and 3) the doctor.

From reader reviews:

John Bledsoe:

A lot of people always spent their particular free time to vacation or go to the outside with them household or their friend. Were you aware? Many a lot of people spent that they free time just watching TV, or perhaps playing video games all day long. If you wish to try to find a new activity here is look different you can read a new book. It is really fun to suit your needs. If you enjoy the book which you read you can spent all day every day to reading a e-book. The book Dental Implants: The Art and Science, 2e it is rather good to read. There are a lot of people that recommended this book. These were enjoying reading this book. In case you did not have enough space to develop this book you can buy often the e-book. You can m0ore quickly to read this book out of your smart phone. The price is not to cover but this book provides high quality.

Arthur McLaurin:

This Dental Implants: The Art and Science, 2e is great e-book for you because the content which is full of information for you who all always deal with world and get to make decision every minute. This book reveal it details accurately using great coordinate word or we can state no rambling sentences inside. So if you are read the idea hurriedly you can have whole info in it. Doesn't mean it only will give you straight forward sentences but difficult core information with lovely delivering sentences. Having Dental Implants: The Art and Science, 2e in your hand like getting the world in your arm, details in it is not ridiculous one particular. We can say that no e-book that offer you world throughout ten or fifteen moment right but this publication already do that. So , it is good reading book. Hey there Mr. and Mrs. occupied do you still doubt that will?

Louise Guest:

As we know that book is very important thing to add our know-how for everything. By a e-book we can know everything we would like. A book is a list of written, printed, illustrated as well as blank sheet. Every year has been exactly added. This book Dental Implants: The Art and Science, 2e was filled with regards to science. Spend your time to add your knowledge about your scientific disciplines competence. Some people has different feel when they reading the book. If you know how big benefit from a book, you can feel enjoy to read a book. In the modern era like today, many ways to get book you wanted.

Wendy Fuller:

That book can make you to feel relax. That book Dental Implants: The Art and Science, 2e was colourful and of course has pictures on there. As we know that book Dental Implants: The Art and Science, 2e has many kinds or category. Start from kids until young adults. For example Naruto or Investigation company Conan you can read and believe you are the character on there. Therefore , not at all of book are usually make you bored, any it offers up you feel happy, fun and rest. Try to choose the best book for yourself and try to like reading that.
