This notebook contains checklists for 11 groups of Arizona animal species: Amphibians, ants, birds, butterflies and moths, dragonflies and damselflies, fish, grasshoppers, lizards, mammals, snakes, and turtles. The introduction to each group covers the group's conservation issues and provides references for printed and online field guides. The checklist for each group includes scientific and common names and conservation status. I alphabetized each checklist by common name and included a species name index.

As a student exactly feel bored to be able to reading. If their teacher expected them to go to the library in order to make summary for some publication, they are complained. Just small students that has reading's soul or real their interest. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading significantly. Any students feel that looking at is not important, boring as well as can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore, this Arizona Wildlife Notebook can make you truly feel more interested to read.
