Europeanisation of Public Policy in Southern Europe: Comparative Political Economy from the 2000s to the Crisis (South European Society and Politics)

Large or small, old EU member or new, and even EU member state or not – political economies across Southern Europe have been increasingly but distinctively ‘Europeanised’. In political, public and scholarly debates on processes of Europeanisation, Southern Europe invariably features as *the* area of concern. These concerns have been all the more heightened when the current sovereign debt crisis disproportionately hit this ‘flaky fringe’.

This volume systematically investigates the dynamics of Europeanisation in the ‘Southern Periphery’ by tracing the domestic constellations of ideas, interests and institutions over the course of the 2000s which came to a close with the crisis. Bringing together a multidisciplinary team of leading specialists, the volume focuses on the political economy of public policy reform in Greece, Italy, Malta, Portugal, Spain and Turkey. In order to allow for cross-case comparisons, these original country studies follow a common template framed by what the Editors call the ‘Europeanisation as research programme’. The volume casts empirical light on the causes of the crisis in these cases as well as the past legacies conditioning their responses to the crisis. Its conclusions point to variegated patterns of Europeanisation in different policy areas across Southern Europe.

This volume will be of interest to students and scholars of European integration, European political economy, European public policy and comparative politics as well as specialists of Southern Europe.

This book was published as a special issue of *South European Society and Politics*.
