## **Lost Friday** Michael Bronte

It's Saturday, September 25th, and the entire town of Sea Beach, New Jersey, has no recollection of what happened to Friday the 24th. Reporter Johnny Pappas is among the baffled residents, as is Chief of Police Roy Mulrone. It's only when Johnny discovers the abduction of high school quarterback David Robelle that the fog over this mystery begins to lift. The evidence leads to the unfathomable conclusion that they've been visited by futuristic time travelers from the International Counter Terrorist Organization, or the ICTO. In the future, time travel becomes a huge geopolitical weapon, enabling those who control the technology to go back in time and manipulate history so that important historical outcomes fall to their favor. The influence extends all the way to the White House. Time travel, human clones called Synthetics, editions of newspapers that haven't even been written yet, it's all part of Lost Friday. Johnny has three objectives: cover the story as a reporter, win the romantic attention of fellow reporter Kelli Remington, and rescue David Robelle from the terrorists. Oh yeah, he'd also like to win a Pulitzer.
