Religion and Legal Pluralism (Ashgate AHRC/ESRC Religion and Society Series)

In recent years, there have been a number of concerns about the recognition of religious laws and the existence of religious courts and tribunals. There has also been the growing literature on legal pluralism which seeks to understand how more than one legal system can and should exist within one social space. However, whilst a number of important theoretical works concerning legal pluralism in the context of cultural rights have been published, little has been published specifically on religion. Religion and Legal Pluralism explores the extent to which religious laws are already recognised by the state and the extent to which religious legal systems, such as Sharia law, should be accommodated.
