**Breaking the law in the name of love.**

Jared and Meekel had lived in El Paso for centuries, coming and going as they saw fit, but it was not until fifty years before that their secret had become known- they were werewolves. The knowledge had not been spread like common news but many people now knew them and their pack walked among them and, in essence, governed them.

He had met and fallen in love with Meekel in El Paso and they had lost their lover, their wife and Omega Shera to the humans in that same town. It was a place that held much of their history and a special place in their hearts so it was only logical that they would want to stay there.

When the humans developed a Faction to help balance the good and evil in the city, the alphas had no problem, but one pesky law limited them. Wolves were not allowed to take humans as mates.

Well, all that might change because Skyler had caught the eye of the alphas looking for an omega and they were ready and willing to kill anyone who opposed that becoming a reality.
