Learn to code the *fun* way with nine real projects for true beginners

Adventures in Coding is written specifically for young people who want to learn how to code, but don't know where to begin. No experience? No problem! This book starts from the very beginning to take you from newbie to app-builder in no time. You'll 'learn by doing' as you build projects designed to help you master fundamental programming skills—and you'll have a great time doing it. These skills form the foundation of any programmer's tool set, and you'll continue to use them as you graduate to other devices and more difficult projects. Each chapter includes a video to help clear up any confusion and make sure you *really* understand, so you can keep programming your way through every single project without hitting major roadblocks. If you're ready to start designing your own program, this book will help you get started today.

More and more kids are learning to code, and many schools offer basic programming classes as part of the regular curriculum. This book is structured like a class, starting with the basics and building skill upon skill, making it both a perfect accompaniment to formal instruction and an ideal guide for self-study.

- Learn the basic programming skills you'll use everywhere
- Build nine fun projects from super-basic to pretty challenging
- Build the skills you need to create bigger and better apps
- Watch video tutorials for extra help and explanations

How many times have you played with an app only to find yourself wishing it had this or that feature? If you learn how to code, *you* can be the creator of the next big app! But it all starts with that first small project. *Adventures in Coding* provides all the information you need, so let's get coding!

From reader reviews:

Myra Lopez:

The book Adventures in Coding (Adventures In ...) can give more knowledge and also the precise product information about everything you want. Why then must we leave the great thing like a book Adventures in Coding (Adventures In ...)? A number of you have a different opinion about book. But one aim that book can give many information for us. It is absolutely proper. Right now, try to closer with the book. Knowledge or details that you take for that, you may give for each other; you can share all of these. Book Adventures in Coding (Adventures In ...) has simple shape but the truth is know: it has great and large function for you. You can appearance the enormous world by available and read a e-book. So it is very wonderful.

Thersa Davenport:

Information is provisions for people to get better life, information today can get by anyone with everywhere. The information can be a knowledge or any news even an issue. What people must be consider whenever those information which is in the former life are hard to be find than now is taking seriously which one is acceptable to believe or which one the actual resource are convinced. If you get the unstable resource then you have it as your main information we will see huge disadvantage for you. All of those possibilities will not happen in you if you take Adventures in Coding (Adventures In ...) as the daily resource information.

Judith Roemer:

Playing with family within a park, coming to see the water world or hanging out with buddies is thing that usually you will have done when you have spare time, after that why you don't try point that really opposite from that. One activity that make you not feeling tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Adventures in Coding (Adventures In ...), you can enjoy both. It is excellent combination right, you still need to miss it? What kind of hang type is it? Oh occur its mind hangout fellas. What? Still don't have it, oh come on its identified as reading friends.

Susanne Pineda:

Reading a book for being new life style in this 12 months; every people loves to study a book. When you read a book you can get a wide range of benefit. When you read ebooks, you can improve your knowledge, simply because book has a lot of information upon it. The information that you will get depend on what types of book that you have read. If you want to get information about your study, you can read education books, but if you want to entertain yourself look for a fiction books, such us novel, comics, and also soon. The Adventures in Coding (Adventures In ...) will give you new experience in reading through a book.
