How and Why to Build a Wine Cellar, Fourth Edition Richard M. Gold PhD

This popular classic, which is based on the author's personal experiences of building a wine cellar in his home and collecting wines for fun and investment, is now completely updated for the modern wine collector. All of the essential construction specifications to maintain the ideal temperature and humidity conditions for long-term storage of wine are provided for the home craftsman or professional contractor. Insulation, refrigeration, and passive systems are detailed and the construction of racks and storage bins is also explained with helpful illustrations. A practical guide to selecting, recording, tracking, and enjoying your wines at their peak performance is included.
