Data Mining With Decision Trees : Theory and Applications (2nd Edition) (Series in Machine Perception and Artificial Intelligence) (Series in Machine Perception and Artificial Intelligence) Lior Rokach

Decision trees have become one of the most powerful and popular approaches in knowledge discovery and data mining; it is the science of exploring large and complex bodies of data in order to discover useful patterns. Decision tree learning continues to evolve over time. Existing methods are constantly being improved and new methods introduced.

This 2nd Edition is dedicated entirely to the field of decision trees in data mining; to cover all aspects of this important technique, as well as improved or new methods and techniques developed after the publication of our first edition. In this new edition, all chapters have been revised and new topics brought in. New topics include Cost-Sensitive Active Learning, Learning with Uncertain and Imbalanced Data, Using Decision Trees beyond Classification Tasks, Privacy Preserving Decision Tree Learning, Lessons Learned from Comparative Studies, and Learning Decision Trees for Big Data. A walk-through guide to existing open-source data mining software is also included in this edition.

This book invites readers to explore the many benefits in data mining that decision trees offer:

Useful for various tasks, such as classification, regression, clustering and feature selection

Readership: Researchers, graduate and undergraduate students in information systems, engineering, computer science, statistics and management.

From reader reviews:

Henry Jensen:Have you spare time for a day? What do you do when you have more or little spare time? Yeah, you can choose the suitable activity for spend your time. Any person spent all their spare time to take a move, shopping, or went to the Mall. How about open as well as read a book called Data Mining With Decision Trees : Theory and Applications (2nd Edition) (Series in Machine Perception and Artificial Intelligence) (Series in Machine Perception and Artificial Intelligence)? Maybe it is to get best activity for you. You know beside you can spend your time together with your favorite's book, you can wiser than before. Do you agree with it has the opinion or you have additional opinion?

Charles Wright:This Data Mining With Decision Trees : Theory and Applications (2nd Edition) (Series in Machine Perception and Artificial Intelligence) (Series in Machine Perception and Artificial Intelligence) are reliable for you who want to become a successful person, why. The reason of this Data Mining With Decision Trees : Theory and Applications (2nd Edition) (Series in Machine Perception and Artificial Intelligence) (Series in Machine Perception and Artificial Intelligence) can be among the great books you must have is actually giving you more than just simple examining food but feed anyone with information that probably will shock your earlier knowledge. This book is actually handy, you can bring it almost everywhere and whenever your conditions both in e-book and printed kinds. Beside that this Data Mining With Decision Trees : Theory and Applications (2nd Edition) (Series in Machine Perception and Artificial Intelligence) (Series in Machine Perception and Artificial Intelligence) giving you an enormous of experience for example rich vocabulary, giving you test of critical thinking that we know it useful in your day action. So , let's have it appreciate reading.

Bruce Herrera:Do you have something that you like such as book? The reserve lovers usually prefer to decide on book like comic, brief story and the biggest the first is novel. Now, why not hoping Data Mining With Decision Trees : Theory and Applications (2nd Edition) (Series in Machine Perception and Artificial Intelligence) (Series in Machine Perception and Artificial Intelligence) that give your pleasure preference will be satisfied by reading this book. Reading routine all over the world can be said as the opportunity for people to know world far better then how they react when it comes to the world. It can't be claimed constantly that reading practice only for the geeky man or woman but for all of you who wants to possibly be success person. So , for every you who want to start reading as your good habit, you can pick Data Mining With Decision Trees : Theory and Applications (2nd Edition) (Series in Machine Perception and Artificial Intelligence) (Series in Machine Perception and Artificial Intelligence) become your own starter.

Della Francis:What is your hobby? Have you heard that will question when you got learners? We believe that that problem was given by teacher for their students. Many kinds of hobby, Everyone has different hobby. And you also know that little person including reading or as examining become their hobby. You have to know that reading is very important and also book as to be the point. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You find good news or update with regards to something by book. A substantial number of sorts of books that can you choose to use be your object. One of them is niagra Data Mining With Decision Trees : Theory and Applications (2nd Edition) (Series in Machine Perception and Artificial Intelligence) (Series in Machine Perception and Artificial Intelligence).
