An Agricultural Testament

Sir Albert Howard

An Agricultural Testament Sir Albert Howard

This is the book that started the organic farming and gardening revolution, the result of Howard's 25 years of research at Indore in India. The essence of organics is brilliantly encapsulated in the Introduction, which begins: "The maintenance of the fertility of the soil is the first condition of any permanent system of agriculture." Full explanation of the Indore composting process and its application. Excellent on the relationship between soil, food and health.
