As a university student exactly feel bored to help reading. If their teacher questioned them to go to the library or make a summary for some book, they are complained. Just minor students that have reading's internal or real their passion. They just do what the professor wants, like asked to go to the library. They go there but nothing reading very seriously. Any students feel that studying is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important in your case. As we
