Fingerprints have provided a valuable method of personal identification in forensic science and criminal investigations for more than 100 years. Fingerprints left at crime scenes generally are latent prints—unintentional reproductions of the arrangement of ridges on the skin made by the transfer of materials (such as amino acids, proteins, polypeptides, and salts) to a surface. Palms and the soles of feet also have friction ridge skin that can leave latent prints.

We should have Latent Print Examination and Human Factors: Improving the Practice through a Systems Approach: The Report of the Expert Working Group on Human Factors in Latent Print Analysis.

#### **Alva Stephenson:**

As a university student exactly feel bored in order to reading. If their teacher questioned them to go to the

library or make summary for some book, they are complained. Just very little students that has reading's internal or real their passion. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that reading is not important, boring along with can't see colorful images on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Latent Print Examination and Human Factors: Improving the Practice through a Systems Approach: The Report of the Expert Working Group on Human Factors in Latent Print Analysis can make you sense more interested to read.
