See context and make connections across the humanities

Throughout *Discovering the Humanities*, Third Edition, author Henry Sayre employs a storytelling approach that helps students see context and make connections across the humanities. Believing that people learn best by remembering stories rather than memorizing facts, Sayre weaves a compelling narrative of multifaceted cultural experiences that will resonate with students — throughout the course and beyond. By showing how cultures influence one another, and how ideas are exchanged and evolve over time, *Discovering the Humanities* helps students understand the cultural interplay that has shaped human thinking and creativity throughout our history.
