General Surgery: Advance Medical Directive/Patient Safety (Audio-Digest Foundation General Surgery Continuing Medical Education (CME). Book 58) Audio Digest

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners – physicians and other healthcare professionals – with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice.

Audio-Digest General Surgery is specifically designed to provide the participant with state-of-the-art information, including, but not limited to:

- Hazards in the operating room
- Professional liability, risk management, and quality improvement
- Blood products and transfusion issues
- Comorbid illness in the surgical patient
- Surgical management of oncologic conditions
- Intraoperative and postoperative infection
- Preoperative patient evaluation, including surgical risk assessment
- Critical care, postoperative recovery and complications
- Management of acute and chronic pain
- Trauma and burns

The goal of this program is to improve end-of-life care and patient safety. After hearing and assimilating this program, the clinician will be better able to:

- 1: Recognize the limitations of advance directives.
- 2: Cite the advantages of the physician order for life-sustaining treatment (POLST) over an advance directive.
- 3: Answer frequently asked questions about the POLST.
- 4: Use surgical checklists to improve quality control.
- 5: Identify and avoid major sources of medical errors in hospitals.
